

## **POLICY**

# **SAFETY & ENVIRONMENTAL PROTECTION**

MyriadSea is committed to working in a way that prevents harm to our people and to the marine environment. We believe that everyone has a right to make it home safely at the end of the voyage, and we will do all we can to provide and promote a safe and healthy working environment.

The MyriadSea Management System has been implemented to achieve this commitment. The system contains the procedures, instructions and processes required for safe and environmentally sound operation of our ships. The system has been prepared with due regard to all relevant national and international regulations, IMO Res. A741/18 and the ISM International Safety Management Code.

### **As a company, we aim to do the following:**

- Actively promote safe working practices on our ships
- Provide a safe, healthy working and living environment
- Manage all risks in the operation of our ships
- Strive to continuously improve awareness of good safety management

### **We will take the following specific steps to implement these aims:**

- We will implement a system of instructions and procedures for our operations, and will continuously monitor its effective implementation
- We will maintain high standards of safety consciousness, personal discipline and awareness
- We will hold ourselves and our people accountable for safety and environmental protection
- We will keep up to date with all relevant changes to rules, requirements or practices and will ensure that these changes are communicated to everyone onboard our ships
- We will ensure that procedures are in place for the identification and management of risk
- We will provide continuous development to our people in safety and environmental protection

### **Everyone is responsible for safety and environmental protection.**

All our people are required to follow procedures and instructions designed to keep them and others safe, and to engage actively in improving safety and environmental protection on our ships. In everything we do, we consider its impact on ourselves and those around us.
