MSMS MyriadSea Management System Update Notice

A new version of MSMS has been issued, **version 6.1**. This replaces all previous MSMS versions. The online version of MSMS has been updated, and can be accessed at www.myriadships.com – note that you may need to refresh your browser to ensure the current version displays. Always check the top right to ensure you are viewing **version 6.1**.

The following is a summary of the changes that have been made to the system:

New Sections

Section	Title	Summary
C09	Certification	This new section sets out requirements for the Company when maintaining mandatory certificates. It describes mandatory certification, sets rules for survey planning, requires a record of certification is maintained and also clarifies the impact of a new certificate being issued. Finally, it requires the Company to prepare an annual survey/audit plan and share this with ship and shore teams.

Amendments

Section	Title	Details of Change
B08	Emergency Preparedness	A link to Forms E has been added. Sections B08.3, B08.4 and B08.5 removed. Numbering corrected. New section B08.4 Emergency Checklists added.
B07	Carriage of Documents	B07.14 Updated. Revision requires Masters to ensure that superseded certificates are not to be kept in certificate folders. In addition, a recommendation to check certificate Verification QR Codes (where provided) is also added.

Amendments to Forms

Section	Title	Details of Change
FORMS E	Emergency Checklists	All E Forms (Emergency Checklists) have been digitised . When clicked, instead of opening a Word document, the page now opens an interactive form. The actions can be checked off directly on the page.

All Officers and crew are required to familiarize themselves with these new sections, and apply them as required.

We remind everyone that forms and instructions should only be printed when needed, to ensure that old forms are never in use.
