MSMS MyriadSea Management System Update Notice

A new version of MSMS has been issued, version 6.2. This replaces all previous MSMS versions. The online version of MSMS has been updated, and can be accessed at <u>www.myriadships.com</u> – note that you may need to refresh your browser to ensure the current version displays. Always check the top right to ensure you are viewing version 6.2.

The following is a summary of the changes that have been made to the system:

Amendments

Section	Title	Details of Change This section has been amended to include a requirement that a battery				
B06.12	Maintenance					
(v. 06)	Batteries	reference file is maintained along with form FM07 for essential and emergency batteries. This ship-specific reference file should include the specific information required by IACS UR R18 for maintenance of batteries used in essential and emergency functions.				
		This amended sections requires the ship-specific details to be referenced on form FM07, and a copy attached or kept with the form.				

Amendments to Forms

Section	Title	Details of Change
FORMS	Maintenance of Essential	This form has been amended to include a section for referencing the ship specific
FM07	and Emergency Batteries	battery information.
(v 02)		

All Officers are required to familiarize themselves with these new sections, and apply them as required.

We remind everyone that forms and instructions should only be printed when needed, to ensure that old forms are never in use.

Ian McIntosh-Oakley Managing Director Valid without signature
