## FLEET DIRECTIVE

FD2301

07.MAY.2023

### SMMS Update

MSMS has been updated, and this directive serves as an interim instruction to follow the updated procedures until a new version of MSMS has been issued in all locations. The below changes are effective immediately.

For those accessing MSMS online, the changes will already be reflected in the system (however, you may need to refresh your browser for them to become visible).

For those accessing a local version (onboard), an update will be issued in due course – in the meantime, a copy of the changed procedure or document is attached here and is to be used immediately.

Nature of the change(s):

Type	Procedure or Document	Details	New Version
Amendment	Form S03 Permit to Work – Hot Work	Form amended.	02
Addition	Form S05 Permit to Work – At Height or Oversight	Form added to MSMS.	01

Please ensure this directive is shared widely, and all take the time to become familiar with the above change(s).

Ian McIntosh-Oakley  
Managing Director
